

INSTALLATION GUIDE

ADVANCED CUSTOM LINKS - MAGENTO 2

BY

This extension can be installed by following few simple steps :

1. Once you have purchased the extension, you need to navigate to [My Downloadable Products](#) section under My account.
2. You need to enter a domain name where you want to use this extension and once you have added the domain you will get a license key and will see a link to download the extension zip. This key is valid for only one main domain and maximum 3 subdomains of the main domain.
3. If you have purchased this extension from Magento marketplace then you need to get the license key from <https://store.webbytroops.com/license/key>.
4. Unzip downloaded file.
5. You will get module folder from zip file, move it to `app/code/WebbyTroops`
6. You will also need to install the Core module to use this module. For installing use the command **composer require webbytroopstechnologies/magento2-module-core**
7. Now run **php bin/magento setup:upgrade** command.
8. Flush the magento cache using, **php bin/magento cache:flush**.
